Distributor Email

Dear Distributor Partner,

I'm reaching out to share exciting news. Earlier this afternoon, we announced [here](#) that Sanara MedTech has agreed to combine with MIMEDX, a global provider of healing solutions for surgeries, wound care and burns.

This transaction brings together two highly focused and complementary organizations with strong momentum in surgical end markets. Together, Sanara and MIMEDX will create a leading regenerative medicine company across numerous surgical subspecialties. By joining MIMEDX and benefiting from its broad portfolio, robust commercial capabilities and a commitment to innovation, we believe we will develop and commercialize transformative technologies that improve clinical outcomes even faster than we could on our own.

In MIMEDX, we have found a great partner – one that respects the strong business we have built at Sanara and the regenerative products we bring to its portfolio. Sanara and MIMEDX share many of the same values, including a commitment to innovation, patient outcomes and excellent clinical support, and we are confident this partnership will better position us to deliver the products and support you have come to expect.

While today's announcement is an important milestone, it is only the first step. The transaction is expected to close by the end of the year, subject to customary closing conditions. Until then, Sanara and MIMEDX will continue to operate as independent, separate companies, and it remains business as usual at Sanara. Your existing agreements remain in effect, and there are no changes to how we work with you or to your day-to-day contact at Sanara.

We will work closely with MIMEDX to support a seamless transition for our stakeholders and will continue to keep you informed as we have updates to share. In the meantime, if you have any specific questions about this announcement, please do not hesitate to reach out.

Your partnership has been an important contributor to Sanara's success, and we look forward to continuing to work with you as we begin this next chapter with MIMEDX.
